PREGNO

# Savoy

Pregno accetta la sfida di arredare e interpretare gli interni di una villa caratterizzata da una grande identità e valenza classica, recuperata e riportata al suo vecchio splendore, senza dimenticare però le esigenze delle dimore attuali e del vivere moderno. Grazie a questo progetto viene concepita Savoy, una nuova collezione dal gusto fortemente classico, che non si presenta però come riproduzione di stilemi, ma mostra invece un forte spirito di originalità e unicità, uno stile che trae ispirazione dal Passato ma che esprime una personalità decisa e un glamour senza tempo. Le forme sono sì classiche, ma sobrie e ripulite, i materiali utilizzati sono, nella tradizione Pregno, pregiati e ricercati, come le radiche di frassino olivato, il palissandro, il ciliegio e le lavorazioni e gli intagli esprimono tutta la tradizione e l'esperienza dell'azienda. Non ultime le finiture, molto particolari, innovative e assolutamente personalizzate, che conferiscono alla collezione un carattere attuale e unico. Pregno...A New Classic Lifestyle.

Pregno accepts the challenge of furnishing and restyling the interiors of a villa with a big personality and classical features, which has been recovered and restored to its former splendour, while taking into account the requirements of present-day dwellings and a modern lifestyle. This project has led to the creation of Savoy, a new collection with a strong classic taste but presented in a stunningly original and unique way; these are not simple reproductions but pieces with a decisive personality and timeless glamour inspired by the past. Although the shapes are classic, they have been subtly restyled and refined, superior materials (a hallmark of Pregno) such as olive ash, rosewood and cherry burl are used, while the woodworking and carving epitomise the years of experience of the company. Last but not least the very special, innovative and fully customised finishes give the collection a unique and up-to-date look. Pregno...A New Classic Lifestyle.

Компания Pregno взялась за такую ответственную работу, как меблировка и оформление интерьеров виллы в классическом стиле с выраженной индивидуальностью, которая была восстановлена и доведена до первоначального великолепия, не оставляя при этом без внимания все требования, связанные с жизнью и жильем современного времени. Специально для этого проекта была разработана новая коллекция в настоящем классическом вкусе - Savoy, которая не является простым сочетанием характерных стилистических элементов, а обладает очень оригинальным и уникальным духом. Ее стиль черпает вдохновение в прошлом, выражая при этом заметную индивидуальность и очарование, не знающее границ времени. Она предлагает классические, но строгие и без излишеств формы. В соответствии с традициями компании Pregno в коллекции используются такие ценные и изысканные материалы, как кап оливкового ясеня, палисандр, вишня. Вместе с этим выполняемые виды обработки и резьба свидетельствуют о мастерстве и богатом опыте работы компании. Не последнюю роль играют очень своеобразные, инновационные и совершенно индивидуальные отделки, наделяющие коллекцию актуальным и уникальным характером. Pregno.. новый, классический образ жизни.

# Savoy

Per la zona giorno della Villa, Pregno ha sviluppato un ampio Soggiorno con zona Pranzo, giocato su tonalità chiare, radici sbiancate e dettagli in foglia oro patinata, una luminosa cucina con zona Pranzo e un ricco Men's Club, ove protagonista assoluta è la boiserie disegnata appositamente per la collezione, che riveste interamente le pareti e il soffitto dell'ambiente. Ogni elemento della collezione, nella sua unicità ed eleganza, è in grado di valorizzare l'ambiente in cui si trova e gli imbottiti e i tendaggi arricchiti da tessuti pregiati e passamanerie preziose completano una cornice già raffinata ed elegante.

Pregno has developed a large living room with dining area for the daytime part of the Villa, playing on the light colours of bleached burls and patinated gold leaf details, a bright and airy kitchen with dining area and a splendid Men's Club, where the main feature is the wood panelling that has been specially designed for the collection and is used here to cover the walls and the ceiling. Every element of the collection is so unique and elegant it will undoubtedly enhance the environment where it is placed, while the fine fabrics and exquisite trimmings used for the padded furniture and the curtaining complete the already refined and elegant atmosphere.

В дневной части виллы Pregno создала просторную гостиную с обеденной зоной, где применяются светлые тона, отбеленный кап и детали из патинированного сусального золота, наполненную светом кухню, тоже предусматривающую обеденную зону, и пышный джентльменский клуб, в котором главную роль несомненно играют стеновые панели, созданные специально для этой коллекции, целиком облицовывающие стены и потолок интерьера. Благодаря уникальному и эксклюзивному характеру каждый элемент этой коллекции подчеркивает красоту помещения. Кроме того, мягкая мебель и шторы, выполненные из ценных тканей и украшенные изысканными басонными изделиями, вносят завершающий штрих в это утонченное и элегантное обрамление.

PREGNO

# Savoy

La collezione Savoy interpreta anche la zona notte della villa, creando due sontuose Camere da Letto e un'elegante Cabina Armadio. La prima camera è permeata dalle tonalità oro, sia nei marmi del pavimento, che nelle pannellature che decorano le pareti, sia nella finiture naturali delle essenze con dettagli in foglia platino anticata. La seconda camera invece gioca sulle tonalità più fredde dei grigi e degli azzurri, sulle finiture chiare e sbiancate delle radiche e soprattutto sulla presenza della mezza boiserie disegnata appositamente per la collezione, completata anche da una parete attrezzata integrata che ospita libreria e mobile tv. La cabina armadio si sviluppa su due stanze gemelle personalizzate per lui e per lei e vuole essere soprattutto un ambiente confortevole e rilassante, dove i proprietari possono curare i propri hobbies e le proprie passioni per orologi e gioielli. In tutti gli ambienti Pregno ha curato con particolare attenzione la scelta di coordinati, tessuti, tendaggi e passamanerie creando un mood raffinato, personale e senza tempo.

The Savoy collection also gives the nighttime area of the villa a new look, creating two sumptuous bedrooms and an elegant wardrobe closet. The key colour of the first bedroom is gold, to be found in the marble floor, the wall panelling and in the natural wood finishes where antiqued platinum leaf details are used. The second bedroom is in colder shades of grey and sky blue plus pale bleached finishes for the burls, and features wainscoting designed specially for the collection as well as an integrated storage wall which incorporates bookshelves and entertainment unit. The closet comprises two twin rooms one for him and one for her; the intention is to create a comfortable, relaxing environment where the owners can dedicate time to their own hobbies and passions for watches and jewellery. Whatever the environment Pregno pays special attention to the choice of coordinated items, fabrics, curtaining and trimmings so as to create a timeless, personal and refined mood.

Коллекция Savoy оформляет также и спальные помещения виллы, где расположены две роскошные спальни и элегантный шкаф-кабина. Первая спальня наполнена золотистыми тонами, украшающими мраморный пол, декоративные стеновые панели, а также натуральную отделку древесины с деталями из состаренной сусальной платины. Вторая спальня оформлена в более холодных серых и синих тонах, в ней применяются светлые и отбеленные отделки капа и, самое главное, она характеризуется наличием половинчатых стеновых панелей, созданных специально для этой коллекции, которая дополняется также и оборудованной интегрированной стенкой для расстановки книг и тумбы под ТВ. Шкаф-кабина предусматривает два одинаковых отделения с индивидуальным дамским и мужским оформлением и предназначен для создания уютного и приятного интерьера, где хозяева могут заниматься своими хобби и увлекаться часами или драгоценностями. При оформлении всех интерьеров Pregno с особым тщанием выбрала сочетающиеся дополнения, ткани, шторы и басонные изделия, создавая изысканную, индивидуальную и неподвластную времени атмосферу.
