PRODUCTS OVERVIEW		48

For over 17 years, we at Manutti have shared an insatiable drive to create and inspire. In fact, we are as passionate about the process as we are about the final piece. From the first sketches, the choice of materials and the creation, to the moment our outdoor furniture finds a home where it belongs.

This love for creation goes hand in hand with our attention to detail. An outdoor space is changed by our sensory experience of it. The way the fabric of a chair touches our skin or the warmth of the top of our new dining table. Handmade pieces carry those tactile experiences in them from the start. That is why, at Manutti, we value craftsmanship in all we make.

Our new collections strike a balance between inspiration and innovation. They are infused with passion and personality. From the clean-lined wood elements of our Solid Collection, the intricately handwoven ropes of our Kobo couch to the sophisticated metalwork of our Duo chair: our designs are the result of true craftsmanship, drive and high quality standards.
